

Math Worksheet

Santa's
NEW
Tradition

1. How long of a piece of wrapping paper (how many inches) will you need to wrap all the way around the box in the picture above?

$$\underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad} \text{ inches}$$

2. How long would the piece of wrapping paper need to be in feet to fit all the way around the box in the picture above? Use your answer above and the chart.

 feet

12 inches = 1 foot
24 inches = 2 feet
36 inches = 3 feet
48 inches = 4 feet
60 inches = 5 feet

3. If you used 1 cloth sack instead of wrapping paper for 1 present the size of the box above for 5 years, how many feet of wrapping paper would you not use?

$$\underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad} \text{ feet}$$
